

Nationwide Rental & Leasing. Built Just for You.

Do you have the trailers you need right where you need them?
We'll help you reduce overhead and increase efficiency.

Scale your fleet up and down effortlessly with the support of a team that cares. With nationwide locations, access to the latest trailer technology, and a fleet of over 60,000 dry vans, reefers, flatbeds, chassis, and specialized equipment, Premier Trailer Leasing has you covered.

Scan to watch the video and learn more.

At Premier, we're in it for the long haul. With one of the largest fleets in the industry and a growing nationwide network of locations, we have the equipment you need, right where you need it.

Why choose Premier?

- Nationwide presence to serve your trailer needs
- Large fleet of dry vans, flatbeds, reefers, liftgates and specialized equipment
- Short-term or long-term rental and lease options
- New and in-fleet equipment options
- Access to RoadCARE: Premier's 24-hour in-house roadside assistance service
- Flexibility – we say yes when others say no

Premier people – always here to help

At Premier, our people make the difference. It's our goal to be flexible and easy to do business with. When you choose Premier, you get a friendly, knowledgeable partner empowered to meet your specific business needs with innovative, creative solutions. So even if you need something out of the ordinary, just ask!

60,000+ Trailers

We offer a diverse fleet of quality trailers, including dry-vans, reefers, flatbeds and more.

40+ Branches

We have locations across the U.S. to serve our customers wherever they need us most.

Latest Technology

Customers access GPS tracking, geofencing, and cargo monitoring on our newer trailers.

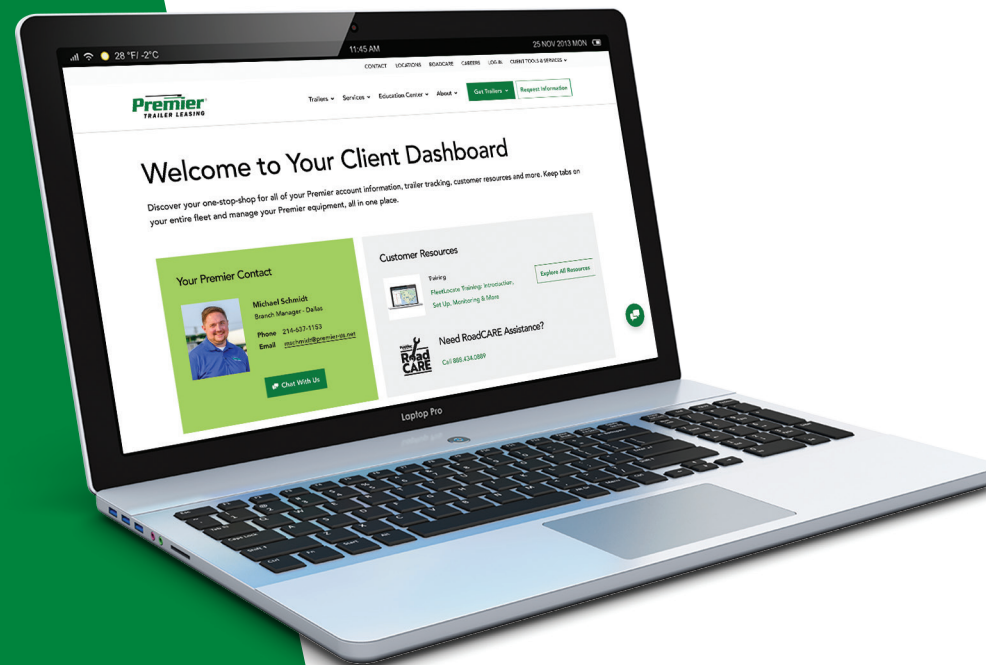

Customer Service

At Premier, our customers come first. We tailor support to meet your expectations.

Spend less time on paperwork and more time on improving your bottom line.

Smart tech that works for you

With the Premier customer dashboard and other advanced technology tools, we're always working to help you conduct your business with greater accuracy, speed and efficiency. Whether it's giving you unprecedented access and control or making routine processes easier and faster, you can count on Premier for solutions.

Premier's customer dashboard provides up-to-the-minute details on all your Premier equipment. This powerful web-based interface is convenient and comprehensive.

With any smart device, you have access to everything from the status of your trailer fleet on the road to the financial and administrative details of your account.

- View active rental and lease trailers
- Access trailer tracking
- Review rental agreements
- Print trailer registrations
- View and approve damage notifications
- Review and download invoices and automate payments with Premier PayPro

Time is money, and our advanced tech saves you both.

The time a driver spends on a trailer lot doesn't generate revenue. That's why Premier has developed technology that automates and speeds up check-out and check-in. Using a handheld device preloaded with forms and trailer information, we get your driver off our lot and back on the road quickly.

Our new in-house roadside assistance service RoadCARE gets you back on the road 24/7. Best of all, it's available to all Premier customers. No subscription required.

Can you be certain you're maximizing your trailer utilization? Our advanced technology eliminates the guesswork.

Premier's trailers are equipped with technology tools that continually send you real-time information about trailer location and status.

Trailer tracking and monitoring

Maximizing trailer utilization is key to optimizing business performance. That's why we offer the option of real-time trailer tracking solutions, like GPS tracking and geofencing by FleetLocate.

- Manage trailer pools with ease
- Location updated every 10 minutes when in motion
- Continuous battery monitoring
- Real-time asset utilization, mileage trends and dwell time so you can improve your productivity

Reefer monitoring and remote control

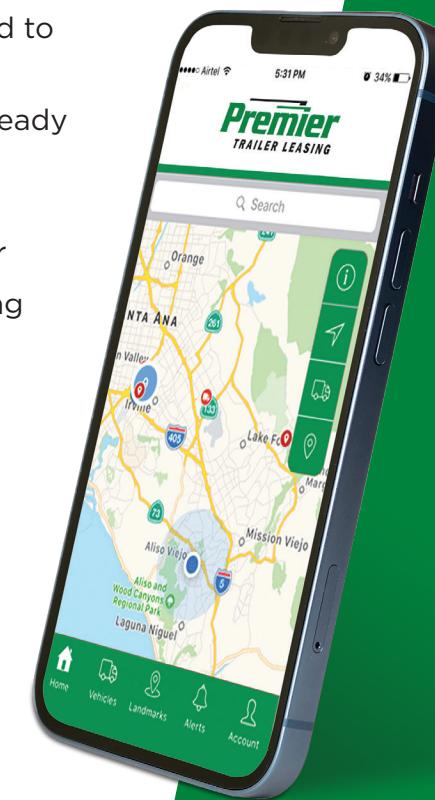

Our customer dashboard provides access to the most advanced refrigeration monitoring system available.

- Remote control, real-time temperature management
- Pre-cool the trailer remotely
- Out-of-temperature-range and remote fuel monitoring alerts
- Improves performance and reduces costs

Cargo sensing for better cargo management

We understand that your trailers are only making money when they're loaded and moving. Our late-model dry vans and liftgates come equipped with powerful IntelliScan® cargo sensing technology.

- Scans an entire 53' trailer accurately and reliably
- Identifies idle trailers that need to be unloaded
- Pinpoints empty, idle trailers ready for reassignment
- Senses varied loads, including soft cargo like carpet or paper
- Combination of optical imaging and laser technology is accurate even in extreme weather conditions

How efficient is your fleet’s fuel economy? Premier trailers improve efficiency and compliance.

Power up with solar to decrease costly downtime

On an idle reefer, telematics can be a major power sink. And if the battery goes dead, you’ve lost your remote connection to the unit. Premier is the only provider that equips all reefers standard with weatherproof solar panels to keep the battery charged, virtually eliminating battery-related road calls.

Save fuel and eliminate compliance concerns

Premier trailers can be equipped with fuel-saving features to meet the special requirements for CARB and EPA SmartWay compliance. And we take care of all permitting while eliminating the hassle of complying with ever-changing regulations.

Manage your cold chain operations for the Food Safety Modernization Act (FSMA)

Our intelligent refrigeration monitoring system helps you comply with FSMA.

- Real-time alerts for temperature, location and reefer health status allow you to address issues before they occur
- Instant and complete data retention, record keeping and reporting
- Certain actions can be automated based on FSMA and shipper requirements

Make your fleet elite with our specialized fleet options!

Dry Vans

- 48' to 53'
- Road, cartage and storage options
- Curtain side
- Paper spec
- Liftgate
- Sheet and post

Refrigerated Vans (Reefers)

- Double-drop extendables*
- Lowboys*
- Removable goosenecks*
- Closed or spread-axle tandems

Chassis

- Tri-axle 20/40 combination chassis

*Specialty equipment. Call your local branch for exact specifications.

Save money, reduce hassles with Premier's Loss Damage Waiver*

Let's assume your physical damage insurance premium is 4% on your leased trailers valued at \$50,000 and you cover 100 of them. You're paying \$200,000 annually in insurance. Just. On. Your. Trailers. Covering your Premier trailers should cost much less. Our product begins and ends with trailer pickup/return. No more unused days, and no more having to schedule and unschedule insurance for every rental. All claims are handled quickly and efficiently by our trained team.

*LDW covers physical and auto damage of Premier owned trailers only. Liability coverage is not included. For details, please visit our terms and conditions page at premiertrailerleasing.com. Some restrictions may apply.
